DETAILED ACTION

1. The indicated allowability of claims 20-26 are withdrawn in view of the newly discovered reference(s) to Brooks 3,784,110. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 27 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

I- As to claim 27, line 6, the claimed limitation "the placement region" lacks antecedent basis.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 20-22,27,36-43,45-46 are rejected under 35 U.S.C. 102(b) as being anticipated by Brooks 3,784,110.

Brooks discloses a foam chemical flow dispenser (14), which comprises a foam chemical foam dispenser body (22) with a mixing module (29) placement portion, a pivotable door (54) pivotably supported by the dispenser body and movable between a

mixing module hold position and a mixing module access position (col. 4, ll. 22-37), means for (57) releasably locking the door in the hold position, wherein the means for releasably locking includes a toggle clamp as seen in Figure 3.

The device shown by Brooks will perform the method recited in claims 40-43, 45-46 during normal operational use of the device.

Allowable Subject Matter

6. Claims 1-15, 17-19, 28-31, 33-35 are allowed.

7. Claims 23-26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

8. Applicant's arguments filed 12/8/2005 have been fully considered but they are moot in view of the new ground(s) of rejection.

Conclusion
